- Coveralls, underclothes, lab coats, gloves
- Restaurant tablecloths, napkins, towels
- Kitchen clothing, shirts, pants and aprons
- Horse blankets, dust mops, club jackets
- Bed linens, comforters, flannel sheets, bed skirts

PERFORMANCE

When it comes to challenges like oil, grease, lubes, distillates and invert drilling mud, regular detergents can't do the job. Safety clothing has come a long way over the years, still those specialized fabrics and fire resistant fibers don't stand a chance against the hazardous laundry chemicals that used to get them clean. "Kick it up a notch" in your heavy-duty laundry with KIK. It's made for clothes that have to work for a living!
